

OKBA BRINIS

Instrumentation & Automation Technician

Phone: +213 699 14 35 92 | **Email:** okba.brinisdz@gmail.com | **Location:** Annaba, Algeria

Nationality: Algerian | **Date of Birth:** 04 Oct 1995

OBJECTIVE

Multidisciplinary maintenance and instrumentation professional with over 5 years of experience in oil & gas operations. Proven ability to lead preventive and corrective maintenance, coordinate with contractors, manage technical documentation, and optimize spare parts inventory. Proficient in SAP CMMS, SQL-based data analysis, and HSE compliance. Ready to lead service planning and methods to enhance reliability and cost-effectiveness.

EXPERIENCE

Instrumentation & Automation Technician

GCB SONATRACH – Hassi R'Mel, Algeria

Apr 2022 – May 2025

- Led field instrumentation maintenance for production wells and CTH facilities.
- Coordinated and scheduled preventive/corrective maintenance activities using SAP CMMS.
- Analyzed sensor data and maintenance history to propose improvements and reduce downtime.
- Participated in preparation of technical specifications for instrumentation services.
- Worked with warehouse to verify part specifications and assist in technical evaluations.
- Ensured equipment documentation was updated and archived for future inspections.
- Contributed to safety committees and conducted HSE compliance checks.

Material & Automation Manager

SAH (LILAS) – Annaba, Algeria

Feb 2019 – Feb 2021

- Oversaw procurement, inspection, and stock control of electrical and automation components.
- Supported preventive maintenance plans for packaging and utility systems.
- Initiated standardization of components and implemented traceability system.
- Coordinated contractor access and logistics for external interventions.
- Participated in internal audits, improving maintenance reporting and documentation accuracy.
- Supported training and onboarding of junior technicians.

EDUCATION

- **Bachelor in Automation Engineering**, University of Annaba (2018 – 2022)
- **Higher Technician in Industrial Electronics**, INSFP Annaba (2016 – 2019)

TECHNICAL SKILLS

- Maintenance Planning: Expertise in SAP CMMS, intervention scheduling, and inventory optimization.
- Instrumentation: Proficient in calibration, diagnostics, SCADA/PLC systems, and downhole sensors.
- Data Analysis: Skilled in SQL, advanced Excel, and developing KPI dashboards.
- Documentation: Experienced in drafting technical reports, procedures, and specifications.
- Contract Support: Competent in technical evaluations, supplier coordination, and managing calls for tenders.
- HSE: Proven ability in field compliance, risk assessment, and conducting safety audits.
